We take pleasure in announcing that we have made arrangem nto club that paper free with the HERALD brought within the reach of subscribing to the HERALD our readers can place themselves in command of the whole situation. All events of interest, local, national and foreign, will be presented completely and promptly by one or the other of these publications. The single feature of full and trustworthy Chicago market quotations will be worth to many of our readers, more than the price asked for both papers To those who are not familiar with the character of the Chicago News, we would say it is the best representative of independent journalism in the west.

The WEEKLY NEWS is a large eight column folio, "cram full" of telegraph and general news, short and pithy editorials on the topics of the day, written in a familiar yet incisive style, and in all its department evidently aims to give facts in a few words, without the verbiage and fine writing which render so many of the large metropolitan journals a "weariness to the flesh." Fucts, not words appear to be its motto.
